-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 15 June 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

## **NON-FINAL OFFICE ACTION**

1. **This application has been assigned to Technology Center 1700, Art Unit 1797 and the following will apply for this application:**

Please direct all written correspondence with the correct application serial number for this application to **Art Unit 1797**.

Telephone inquiries regarding this application should be directed to the Electronic Business Center (EBC) at <http://www.uspto.gov/ebc/index.html> or 1-866-217-9197 or to the Examiner at (571) 272-1139. All official facsimiles should be transmitted to the centralized fax receiving number 571-273-8300.

### ***Priority***

2. Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d). All of the CERTIFIED copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

### ***Information Disclosure Statement***

3. Note the attached PTO-1449 form submitted with the Information Disclosure Statement filed 15 JUN 2005.

### ***Drawings***

4. The marked-up sheets of drawings filed 15 JUN 2005 are acknowledged, however, a corresponding set of replacement sheets that incorporate such changes is

not present in the IFW file. A proper set of replacement sheets that includes all drawing revisions is required.

### **INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

#### **Replacement Drawing Sheets**

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" (37 CFR 1.121(d)) and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

#### **Annotated Drawing Sheets**

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheets must be clearly labeled as "Annotated Marked-up Drawings" and accompany the replacement sheets.

#### **Timing of Corrections**

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

***Specification***

5. The substitute specification is approved.
6. The Abstract of the Disclosure is objected to because:
  - a. it lacks substance as it is not an adequate and clear statement of the contents of the disclosure. A reading of the abstract does not provide the character of the subject matter covered by the disclosure. The abstract should be more comprehensive of the disclosed subject matter.

Correction is required. See MPEP § 608.01(b).

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. **Claims 1-3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by SU 659193.**

SU 659193 discloses a drum centrifuge with a drum shell 1 with discharge nozzles 5, 14; wear protection elements 8 for the nozzles; the drum has a vertical axis of rotation and a single-cone or double-cone construction (Fig. 1); the nozzles are in the area of the largest diameter of the drum (Fig. 1); the protection elements 8 being formed of a hard metal (per the abstract).

The product-by-process limitation of claim 3 (i.e., the manner in which the nozzle is inserted into the drum) does not impart patentability to the claims per MPEP 2113.

**9. Claims 1, 2, 4-9, 11, 27, and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Schlieperskoetter (US 5,244,584).**

Schlieperskoetter '584 discloses a drum centrifuge with a drum shell 1 with discharge nozzles/openings 2 and/or 7; wear protection assemblies including elements 8, 17 for the nozzles; the drum has a vertical axis of rotation (when viewing Figure 1 oriented 90 degrees from that shown) and a single-cone or double-cone construction (Figs. 1 and 5); the protection elements 8 having inclined or ramp surfaces 15 (Fig. 4); the protection elements 8 being formed of a hard metal or ceramic (col. 4, lines 30-33); the discharge openings 2 being oriented in an offset and inclined manner within the recited range (Fig. 2 and col. 3, lines 58-65); the wear protection elements 8 extending to the outer periphery of the drum shell 1 (Fig. 4); the wear protection elements 8 fastened to the shell 1 via screws 17; the protection elements 8 having inclined or ramp surfaces 15 that project beyond the drum shell 1 as seen in Fig. 4; the drum shell 1 having recesses within 16 that receive the wear protection elements 8, 17.

***Allowable Subject Matter***

10. Claims 10, 12-26, and 29-30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles E. Cooley in Art Unit 1797 whose telephone number is (571) 272-1139. The examiner can normally be reached on Mon-Fri.. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
